

# Local Baby Eaten By Trump

A local baby was on a prison transfer when President Trump saw the baby from a *considerably* long distance and chased the baby for thousands of miles. When the supreme leader eventually caught the baby he took a massive **bite** out of the infant. That activated the self destruct on the baby causing thousands of casualties.

## Local witness

Robert Gaylord was an innocent bystander that saw the carnage but sadly was blown up. Before he was vaporized he was heard saying "Awweeee man, I'm dead."
